

Media Analyst for Mozambican Environmental, Science, Technology, and Health (ESTH) Issues

Project Title	Media Analyst for Mozambican Environmental, Science, Technology, and Health (ESTH) Issues
Project Summary	Review English-language (and, if proficient in Portuguese, local media) news articles, social media posts, blogs, and other publications focused on Mozambican ESTH issues. Compile a twice-monthly update for distribution within the State Department and other U.S. federal agencies.
Country	Mozambique
Agency	Department of State
DoS Office	N/A
Post	MAPUTO
Section	ECON
Number of Interns	2

Project Description

Environment, science, technology and health (ESTH) issues are a key area of engagement within the bilateral relationship between the United States and Mozambique. Falling under the purview of U.S. Embassy Maputo's Political/Economic section, topics of focus include: illegal wildlife trafficking, conservation, agriculture, and HIV/AIDS support/prevention.

Your principle task would be to review English-language (and, if proficient in Portuguese, local media) news articles, social media posts, blogs, and other media focused on Mozambican ESTH issues. Using this research, you will compile a twice-monthly update for distribution within the State Department and other U.S. federal agencies.

If time permits, you will research and develop ESTH material for U.S. Embassy Maputo's Public Diplomacy outreach efforts. These efforts will include drafting Facebook and other social media posts for distribution to U.S. Embassy Maputo followers. Potential contributions include outreach material for Earth Day and World Biodiversity Day.
